## Research Interests

- Stream ecology and splash physics
- Fishy smells and where to find them
- Mud composition analysis (via rolling)
- Sniff-based species identification

## Skills

- Advanced Sniffing
  - Certified in three scent categories
- Weather Sensing via Ear Droop
  - Ear angle decreases 15° per inch of rainfall. Reliable forecasting accuracy: 87%
- Highly trained in nap-based meditation
- Inbox Monitoring
  - Lays near computer to supervise email checking
- Chair-Warming Specialist
- High-Level Observation
  - Ability to stare out the window for hours
- Expert Trip Hazard
  - Positions self in doorways, under desks, and across walkways for maximum awareness-building among lab staff

# Roscoe Dog

Canine Research Assistant

**Objective:**
To contribute to the pawsitive morale of the Aquatic Ecology Lab through diligent tail-wagging, sample sniffing, and enthusiastic participation in fieldwork.

## Education

**PUPPY SCHOOL OF NATURAL SCIENCES**
Certificate in Good Boy Studies
4.00
Honors: Most likely to Chase Squirrels

## Experience

### (2023-Present)

**CANINE RESEARCH ASSISTANT**
Aquatic Ecology Lab

- Provided emotional support during manuscript edits
- Specialized in finding “the one spot” on the grass for optimal observation
- Performed rigorous quality control on lunch leftovers

### (2021-2023)

**INTERN, DEPARTMENT OF SQUIRREL SURVEILLANCE**
Backyard Ecology Unit

- Monitored arboreal fauna with great intensity
- Barked hourly to maintain boundary integrity
